

LAB ANALYSIS REQUEST FORM

Date: _____

I *Distributor/Customer Information:*

Company name _____

Country _____

Contact person _____

II *Contact Information:*

Company name _____

Business Field _____

Sample information _____

Number of samples _____

III *Measurement with Laser Channel:*

Expected size (Microns): D10 _____ D50 _____ D90 _____

Ultrasound pre-measurement (min.): _____ Ultrasound post-measurement (min.): _____

Dispersing agent _____

Carrier (only if not water) _____

Results: Graphs Tables

Type of Distribution: Volume Number Area Length

IV *Measurement with Video Channel (Shape Analysis):*

Aspect ratio Shape factor/Circularity Average Ferret

Area Minimum Ferret Maximum Ferret

Specific length Specific width Curling index

Perimeter Calculated volume Equivalent diameter

Other _____

Results: Graphs Tables

V Requested quantity and Safety Data Sheet

The sample quantity should be at least 200 grams for dry measurements and 50 grams for wet measurements.

All samples should be accompanied by a Safety Data Sheet.
If not available, customer should provide detailed description of possible dangers.

VI General Explanation of the application:

VII Material Shipment and Measurement Time Frame:

- All shipment costs are on the sender expenses.
- The time frame for the material analysis will be determined by our Lab after investigation.

Please printout this form, fill in the details as requested and send it back to us by Fax or E-mail:
